### SUMMARY

I am a detail-oriented Frontend Developer with over 2 years of hands-on experience in designing, developing, and maintaining responsive web and mobile applications. My expertise spans React.js, Flutter, JavaScript, and TypeScript, with a strong foundation in UI/UX design, RESTful API integration, and Agile methodologies. I am passionate about continuous learning and delivering user-focused solutions, aiming to contribute to innovative teams and impactful projects.

### EXPERIENCE

#### Frontend Developer (Freelance)

##### Freelancing

📅 2023-05-01 - Present 📍 Damascus, Syria

Worked as a freelance Frontend Developer, designing, testing, and maintaining web and mobile applications. Specialized in React.js and Flutter, with responsibilities including responsive UI development, API integration, state management, and collaboration using Agile methodologies. Delivered multiple projects across diverse domains, ensuring code quality and user-focused solutions.

### PROJECTS

#### Umbra – Visitor Tracking System

##### Business Solutions

**Duration:** 4 month(s) **Role:** Frontend Developer  
**Technologies:** React.js, TypeScript, Tailwind CSS, REST API

Designed and implemented responsive UIs for visitor management in entrepreneurship hubs. Integrated APIs for real-time data tracking and ensured accessibility and modern UX standards.

#### Hotel & Travel Booking App

##### Travel & Hospitality

**Duration:** 4 month(s) **Role:** Frontend Developer  
**Technologies:** Flutter, Dart, Firebase, Google Maps API, BLoC

Built a cross-platform Android/iOS app for hotel and flight bookings. Developed an admin dashboard, integrated Google Maps, secure payments, and user reviews, applying the BLoC pattern for state management.

#### Weather App

##### Utilities

**Duration:** 1 month(s) **Role:** Frontend Developer  
**Technologies:** React.js, REST API, CSS

Developed a multi-language weather app with live data from OpenWeather API. Delivered a responsive UI supporting English and Arabic, deployed on Netlify.

#### Bachelor of Information Technology Engineering

Pursuing a Bachelor's degree in Information Technology Engineering. Expected graduation in 2026. GPA: 83%.

##### Damascus University

📅 2021-09-01 - 2026-06-01

### LANGUAGES

Arabic	●●●●●
Native	
English	●●●●●
Advanced	

## Order Food App

### Food Delivery

**Duration:** 1 month(s)    **Role:** Frontend Developer

**Technologies:** React.js, Firebase Realtime Database

Built a mobile-first food ordering platform with real-time order tracking. Designed intuitive UI components for menu browsing, cart management, and order submission.

---

## Todo List App

### Productivity

**Duration:** 1 month(s)    **Role:** Frontend Developer

**Technologies:** React.js, Hooks

Created a task management app with features for adding, editing, filtering, and deleting tasks. Used React Hooks for state management and deployed on Netlify.
